

Hi Dave and Shelia

hope all is well with the tubs, and hope you did well at the home show. Your electrician was here fixed our panel and ran the wire out to the tub so everything is great. THE TUB IS AWESOME, we both got the chance to use the tub and love it. Anyway here are some picture of the tub that you (Dave asked for) Oh by the way on the lift for the cover it has 3 little hooks for the towels awesome!!

Thanks again and you both have great customer service skills!!!!
Kevin & Janice

Hey David

Thank you for your awesome service I so love my pool.. can you tell from the picture? I will send you a lot of referrals, word of mouth is the best form of advertisement. Thanks for the personal service greatly appreciated!!!!!! Talk to you in the fall
Adele

Hey Dave,

Just thought I would drop you a quick note to say how pleased we are with our new Canspa Hot Tub, we are in it every night (even at -22 C!) This purchase couldn't have been easier and delivery and set-up was a breeze! Thanks so much and always a pleasure to deal with you.

C.M. Colquhoun

Sales, service and overall fantastic experience!

Are you considering installing a pool or hot tub? Go to Valley Pool Service. My experience was one that you do not get a lot of in this day and age. From the minute I walked in, there was no pressure but a lot of information given. They had the time to sit and talk, give an estimate and explain the procedure. When you do decide to buy? Their word is as good as gold. If you are told that they will be there on a certain date, they are there. Questions on pool and spa care?

Call them - they are so helpful, even if you ask the same question twice. Having a pool and hot tub was a lifelong dream - thanks to Valley Pool Service, my dream came true. They should be called Dream Maker Pool and Hot Tubs. I would and do highly recommend this locally owned and operated business!
